

TOWN OF BELVIDERE LEAF COLLECTION

Leaf collection will begin the week of 10/23/23. Most streets will be collected more than one time. Please put your leaf piles neatly along the road edge and try to keep piles no more than 8 feet wide to help us expedite leaf collection. No brush or other debris is to be put into piles. Please do not put piles on top of storm drains so as to allow water to flow unrestricted to the drains. Any piles with mixed debris will be left and will become homeowners' responsibility to remove. You will be able to place leaves at curbside until 12/3/23. After December 3rd you can bag your leaves in biodegradable leaf bags and call DPW at 908-475-8232 for pick up. For Town of Belvidere residents only, we have a 30-yard container for brush located at our garage, 234 Paul Street. It is available for you to dump your brush, Monday thru Friday 7AM to 3PM. No construction debris or bags allowed. No contractors are allowed to dump into container. If you have any questions, please call our garage at the number referenced above or email me at Jstout@Belvidere-nj.org.
